

TECHNICAL INSTRUCTION (NAVSEA TEMPLATE)

Ref: (a) NAVSEA 5252.242-9115 (TECHNICAL INSTRUCTIONS)

Enclosure (if applicable): []

This Technical Instruction (TI) is issued pursuant to reference (a) from my capacity as the Contracting Officer's Representative (COR) for the contract/order identified below. This TI is issued with the understanding that implementation is within the present scope of the contract/order and that it does not change the statement of work or other terms and conditions. Nothing herein should be construed as amending the subject contract/order or as changing any contractual requirements. If the contractor believes that compliance with anything herein would constitute a change in the requirements of the subject contract/order, the contractor should not accept the TI and notify the Procuring Contracting Officer (PCO), in writing, within ten (10) working days, specify the reason(s) for such belief, and take no further action. A copy should also be sent to the COR.

Note: The contractor shall inform the COR, in writing, when 75% of the costs allotted to this TI have been expended. Expenditures for this TI shall not exceed the allotted amount. This TI is contingent upon the availability of funds and performance shall not commence until funding has been obligated on the contract/order.

Special Skills Required	Program Support; Schedule Management Support for Electromagnetic Railgun;			
Applicable SOW/PBWS Paragraph Number(s)	C.2.1.1, C.2.1.2, C.2.2.1, C.2.2.2, C.2.2.3, C.2.5.1, C.2.5.2, C.2.5.5, C.2.5.7, C.2.6.2, C.2.7.1, C.2.7.2, C.2.7.3, C.2.7.4			
TI Title	Railgun Support)			
TI Description	The Directed Energy Warfare Office (DEWO), Office of Naval Research, and NSWC Dahlgren Division are involved in the development of multi-mission Electromagnetic Railgun. The intent of this efforts is to develop government-owned / government-controlled design(s) as part of the development of demonstrators, and for future refinement as part of formal acquisition processes.			

Support is required to assist the government in establishing the design and the development of one or more demonstrators as part of a sea and land demonstration campaign.. Specific tasks are:

- 1) Programmatic Support:
 - Developing, editing, reviewing, and providing inputs to technical and planning documents, reports, briefings, and other documents of interest. These documents include, but are not limited to: schedules, management plans, test and evaluation strategies and plans, reports, research results, or other documentation as specified by Project Lead
 - Support development, submission, and tracking of procurement documents for subsystems and components, particularly as they impact an integrated master schedule (IMS).
- 2) System Engineering Support:
 - Support the production of systems engineering and related documentation including plans, reports, and presentations as directed
 - Provide IMS configuration management support during design and construction of the demonstrator
 - Assist in maintaining the Integrated Master Schedule (IMS), particularly by providing program leadership with routine schedule updates and tracking of critical path schedule elements
- 3) Subsystem Development and Integration Support:
 - Provide schedule support to the technical teams including the development, fabrication, integration, and testing of subsystems and components within the Electromagnetic Railgun
