

TECHNICAL INSTRUCTION (NAVSEA TEMPLATE)

Ref: (a) NAVSEA 5252.242-9115 (TECHNICAL INSTRUCTIONS)

Enclosure (if applicable): [1]

This Technical Instruction (TI) is issued pursuant to reference (a). The TI will be effective upon incorporation into a modification. This TI is within the present scope of the contract/order and it does not change the statement of work or other terms and conditions. Nothing herein should be construed as amending the subject contract/order or as changing any contractual requirements. If the contractor believes that compliance with anything herein would constitute a change in the requirements of the subject contract/order, the contractor should not accept the TI and notify the Procuring Contracting Officer (PCO), in writing, within ten (10) working days, specify the reason(s) for such belief, and take no further action. A copy should also be sent to the COR.

Note: The contractor shall inform the COR, in writing, when 75% of the costs allotted to this TI have been expended. Expenditures for this TI shall not exceed the allotted amount. This TI is contingent upon the availability of funds and performance shall not commence until funding has been obligated on the contract/order.

Special Skills Required	n/a			
Applicable SOW/PBWS Paragraph Number(s)	2.2.2			
TI Title	Human and Man-Made Object Detection (HuMOD) Support			
TI Description	<p>The work performed under this Technical Instruction falls within the scope of the contract/task order: 'assist the Government in supporting mission requirements for advanced warfighter technologies, operations and missions, as well as other relevant or related US Government missions by providing analysis and planning support; developing and supporting technical definitions of user requirements; facilitating technology interchange; observing and analyzing operational environments and requirements; providing technology management and transition support; assisting with the integration, coordination and synchronization of government contractors efforts and providing program and policy support', and under task area 2.2.2 Technology Utilization</p>			

Support: 'assist the Government in the evaluation of potential applications for existing and new technologies that impact the advanced warfighter. The contractor will assist in the gathering of technical data and any relevant data that can be correlated for selected technology evaluations, and assist in assembly and evaluation of requirements from selected users. In addition, the contractor will develop, analyze and develop strategic and tactical concepts for the application and exploitation of technologies for new and emerging mission needs'.

The contractor shall support the research, analysis, design, development, upgrades, test, and evaluation related to human and man-made object detection (HuMOD) electro-optical sensor systems to be used for situational awareness/surveillance in support of advanced warfighter technologies. These systems may include passive multi-spectral visible and infrared sensors, and laser-based optical augmentation subsystems. Support includes modeling and simulation studies; scientific analytical studies; mechanical, optical, electro-optical, hardware, and software/algorithm design and development services, in addition to laboratory and field testing.

No video production is authorized under this contract/task order/technical instruction. Construction, Catering and the procurement of Information Technology (IT) is NOT authorized under this contract/task order. All services performed under this TI shall be within the scope of the contract/task order and TI. The Contractor shall NOT act as a procurement office for the customer. Only a warranted Contracting Officer has the authority to change the terms and conditions of this contract/task order.
